

Assalamualaikum wr wb,

I am Annisa Rahmadania Agustin from IPIEF 2021. Here I want to share my experience during a student exchange at Sultan Azlan Shah University. approximately 3 months, not too much activity was done while there. when we arrived at Sultan Azlan Shah University on the first day, we got a warm welcome. and because at that time it was the fasting month, so we were invited to attend the iftar together. even on the first day of Eid we were invited to Eid together with my host family, where I could try typical Malaysian Eid cakes and food. During the Eid week, there were lots of campus events that invited us to come as special guests for exchange students from Indonesia. even every time there is a certain event we participate in attending the event. In early July before starting the final exam, we were invited by friends to go on vacation to Kuala Lumpur by train. just a few of my places, like girlfriend central, petronass tower, lalaport etc, because we only have one day in kuala lumpur. and on our last day in Malaysia, we were invited to a farewell event, to be given certificates and other souvenirs. that's my experience during student exchange at Sultan Azlan Shah University, thank you.

Wassalamualaikum wr. wb
